2.3 What are the grounds being relied on?

Using numbered paragraphs, specify the grounds on which you are seeking the proposed variations.

You must outline how the proposed variation etc is necessary in order to achieve the modern awards objective as well as any additional requirements set out in the FW Act.

1. In extending the duration of the operation of Schedule X from 30 September 2020 to 29 March 2021, the Full Bench in [2020] FWCFB 5137 said:

“The observations made in the 8 April decision in respect of the basis for the initial insertion of Schedule X into the relevant Awards remain apposite. In particular, the COVID-19 pandemic is still in progress and without the continued operation of Schedule X there would be a ‘regulatory gap’ in the award safety net concerning persons who are required to self isolate. Continuing access to unpaid pandemic leave will enable more people to remain in employment and will support the important public policy objective of encouraging those who should self isolate to do so, thereby limiting the spread of COVID-19 in workplaces and allowing business to continue to operate”¹

2. The COVID-19 pandemic is still in progress:
 - a. Each State and Territory continues to have declarations and/or orders in place so as to enable enhanced public health and enforcement powers in connection with the Pandemic², which have been regularly renewed since being made between January and March 2020;

¹ At [11].

² [Public Health \(Emergency\) Declaration Further Extension 2021 \(No 1\) \[ACT\]](#); [Approval of extension of a major emergency declaration under section 23 of the Emergency management Act 2004 \[SA\]](#); [Extension of State of Emergency Declaration](#) and [Extension of Declaration \(No.2\) of a Public Health State of Emergency \[WA\]](#); [Public Health \(Further Extension of Declared Public Health Emergency-COVID-19\) Regulation \(No.6\) 2020 \[Qld\]](#); [Extension of Operation of a Declaration of Public Health](#)

- b. International travel into Australia remains prohibited, save for Australian citizens and residents and their immediate family and travellers who have been in New Zealand for the previous 14 days.³
 - c. Persons returning to Australia, save for those who have been only in New Zealand or are in some special exemption categories, are required to quarantine for 14 days and be tested for COVID-19.⁴
 - d. There has been transmission linked to quarantine breaches in Victoria (July 2020, February 2021), New South Wales (August 2020, December 2020, March 2021) South Australia (November 2020), Tasmania (February 2021), Queensland (January 2021, March 2021) and Western Australia (February 2021), resulting in contact tracing efforts triggering requirements for testing and isolation.
 - e. Whilst the pandemic is presently well controlled, the risk of outbreaks and associated intensive periods of contact tracing and testing remains.
 - f. Testing, including at specialist testing facilities, continues with over 270,000 tests conducted in the week to 14 March 2021⁵.
3. The nationwide vaccination program is a critical intuitive in reducing the likelihood of further outbreaks. Despite indications that the vaccines would be available to to all Australians by the end of October 2021,⁶ as at 17 March 2020 there had reportedly been 182,400 vaccines administered against a target of 4 million for the month of March.⁷ The Prime Minister has since clarified that only the first dose of vaccines is likely to be administered by the end of October 2021.⁸ It is presently unclear when the vaccination program will conclude.
4. The granting of the application to extend the unpaid pandemic leave entitlement until 31 December 2021 does not prohibit the Commission from calling the matter on prior to that date (either on application or on its own initiative) to consider a different sunset date.
5. Such further or other grounds as the Commission considers appropriate.

Attach additional pages, if necessary.
