
COST OF LIVING.

ALBURY, Wednesday.—Of late there has been a steady increase in the price of practically every household requirement, due to the tariff and the bad season. Associations have been formed among local bakers, butchers, dairymen, and other retail traders, and a uniform increase of prices has been decided upon. On Monday bread was increased to 3d. the 2lb. loaf, and today milk was raised to 5d. a quart.
