Dear Caitlin,

As discussed, Master Builders is conscious that the parties undertook to provide the Deputy President with a document highlighting where there is agreement (or otherwise) to the grouping and classification of allowances within the On-Site Award.

We note that the Deputy President asked that such a document be provided by the end of last week, however, as we only received a first draft from the CFMEU on Friday 2 February 2018, we are still in the process of collating our response. We should also note that our reply to the CFMEU's submissions with regard to clause 19.5, as discussed during the recent conciliation conference, will also need to be made with reference to the CFMEU's document.

We appreciate the Commission providing the parties with additional time to consider and settle their position with regard to the ordering of allowances.

If you have any further queries, please don't hesitate to contact me.

Kind regards,

Rebecca Sostarko
