Subject: RE: AM2016/32 - 4 yearly review of modern awards - Waste Management Award 2010 - Substantive variations

Dear Associate

We represent the Waste Contractors and Recyclers Association of NSW in relation the 4 yearly review of the Waste Management Award 2010.

The letter from the TWU dated 27 January 2017, posted on the Commission's website, advised the following:

We can advise that none of the draft determinations filed on 21 December 2016 in relation to the Waste Management Award 2010 will be pressed at this stage.

We have also been advised by the TWU that, at this stage, it is not pursuing the Accident Pay variation which has been referred to the Full Bench.

Therefore there are no draft determinations, evidence or submissions before the Commission to be dealt with in relation to substantive variations to the Waste Management Award 2010.

In those circumstance we respectfully enquiry whether the Commission will formally confirm that there are no remaining substantive matters to be determined in respect of the Waste Management Award 2010 in the current 4 yearly review of modern awards, and therefore no requirement for attendance at the hearings listed in March 2017.

Regards

Martin Dunne
