18 July 2018

Associate to President Ross

By email

Dear Associate,

Re: Modern Awards Review - AM2017/43 - Fast Food Industry Award 2010

We refer to the above matter and the direction issued by his Honour the President in the course of the hearing on 16 July 2018 that the SDA indicate by not later than 12.00pm today, those findings sought by the AI Group which the SDA will oppose being made by the Commission.

With reference to the paragraph numbering of the document filed by the AI Group, we advise that the SDA objects to the following findings sought by the AI Group:

Paragraphs [11], [12], [13], [14] and [16].

The SDA does not seek to dispute the findings sought by the AI Group in:

Paragraph [15], but says that those findings are incomplete for reasons it will articulate in closing submission; and

Paragraph [17] but says that the Commission should conclude that the validity of the finding on the evidence relates to a minority of McDonald's restaurants only.

A copy of this communication has been forward to AMOD.

Yours faithfully,

A J MACKEN & CO.
