**Subject:** Modern Award Review - Tranche 3 - Exposure Drafts

Dear Modern Award Team

I am writing in relation to the modern award review in respect of specific [tranche 3 awards](#), namely the:

- Seagoing Industry Award;
- Marine Towing Award;
- Ports, Harbours and Enclosed Water Vessels Award; and
- Marine Tourism and Charter Vessels Award.

On review of the exposure drafts of these awards (linked in the decision, [\[2020\] FWCFB 421](#)), various notes highlighted in green boxes have been included which refer to decisions and comments due by certain dates which have now passed. For example, under clause 4 coverage for the [Seagoing Award](#), the latest exposure draft notes that *'Clause 4 is being considered in matter AM2016/5, see draft determination. Comments are due by 31 January 2020'*. The exposure draft has not been updated to include the most recent outcome of this [decision](#).

We are therefore wondering whether the FWC has updated exposure drafts with all items from various decisions being updated and captured in the exposure drafts?

We look forward to hearing from you.

Kind regards  
Tayissa
