Dear Associate

I refer to the above matter, and specifically the directions of President Ross set out in the Report of 23 March 2020.

Direction 2 requires the CFMMEU to file a draft determination and submission in support of its proposed variation by today's date. Regrettably, we will not be in a position to file this material today. We therefore respectfully request an extension of time so that this material is filed by close of business on Monday, 20 April 2020.

The grant of the extension sought would afford all other parties a period of more than three weeks to file their reply submissions in accordance with the Commission's current directions. Given the short extension sought and the period of time that will remain before submissions in reply are due,

we submit that the other interested parties would not be prejudiced by the grant of the extension requested.

I confirm I have copied in the representatives of the other parties who were in attendance at the conference on 12 March 2020 to this email.

Kind regards

Eliza Sarlos
